

expressWay

CONNECTIVITY

expressWay™ Connectivity offers reliable, cost-effective, multi-asset access to market centers at unsurpassed speeds—all, fully hosted at Mantara’s state-of-the-art, high-throughput colocation data centers.

It provides an API for trading across multiple asset classes and venues at extremely low latency. It also offers a multitude of connectivity for routing to exchanges, ATSS, dark pools, brokers and algorithm providers via FIX and native protocols. This access solution helps power the usability and speed of expressWay Risk and expressWay Market Data.

Features

expressWay Connectivity provides:

- Colocation as a hosted, fully-redundant, service bureau-based model
- Deployment through flexible APIs
- Full compliance with Reg SHO and Reg NMS rules, includes full audit of order lifecycle capabilities for compliance reporting

Benefits

Easy to use – Simple integration and deployment gets you up and running quickly.

Fast – The speed and reliability of access ensures connectivity to all of your execution venues worldwide.

Integrated – Our comprehensive, integrated solution makes it straightforward to manage and control all aspects of your trading environment from one platform.
